H5 Data Centers Herndon

Why H5 Data Centers Herndon

Located just minutes from Dulles International Airport and within the heart of Northern Virginia's data center corridor, H5 Data Centers' Herndon facility at 470 and 480 Springpark Place is a high-performance, carrier-neutral colocation site tailored for enterprises, cloud service providers, and content platforms. This site benefits from direct access to major fiber routes and proximity to Ashburn's dense interconnection ecosystem while offering competitive rates and operational flexibility.

With its strategic location, scalable infrastructure, secure design, and competitive pricing, H5's Herndon facility is an ideal solution for companies requiring high availability, strong connectivity, and trusted operational support.

Diverse Data Center & Colocation Offering

The building supports diverse fiber entry points and robust cross-connect capabilities, ensuring low-latency, resilient interconnection for mission-critical workloads. Peering opportunities and direct access to major internet exchanges further enhance its value for content delivery and enterprise communications.

H5 DATA CENTERS

Ideal for Connectivity Solutions

LET'S TALK: 833-619-0412

## The Capacity & Features You Want

Infrastructure Features

- 53,000 square foot facility
- 15 MWs of critical capacity available in Q1 '27
- Supports both air-cooled and liquid-cooled environments
- 100% uptime SLA

Security Features

- Dual-factor authentication and access controls
- 24x7 camera surveillance
- Personnel background checks and US citizens
- SOC audits and ISO certifications

Additional Features

- This site will support high densities and liquid cooling applications.
- This data center campus is a rare opportunity to secure space and power right in the world's largest data center ecosystem.
- Turnkey colocation and private suite options.
