# H5 New Jersey: Connecting The East Coast

Located just outside of New York City, H5 Data Centers' New Jersey facility is primed to provide IT support all along the eastern seaboard.

Built to support customer growth and continuity. New Jersey serves as a cloud and interconnection exchange point for low latency in all business operations.

To maintain the highest standard of security, our New Jersey location undergoes rigorous annual audits like SOC2 Type II and PCI-DSS.
## Prime Location To Support One Of The Largest Markets In The World

New Jersey is positioned in a thriving data center market. It's proximity to New York provides vital support to mission-critical operations and a more favorable business environment.
